(54) Title: ONE TOUCH-TYPE STOPPER AND A CONTAINER HAVING THE SAME

(57) Abstract: The present invention relates to a one touch-type stopper operable with one hand for convenience of use thereof through easy opening and closing thereof, and a container having the stopper. The one touch-type container stopper of the present invention comprises a hermetically sealing part (110) which has, at a lower end thereof, a plurality of first supporting protrusions (111) formed to protrude inwardly such that they are elastically supported along an outer peripheral surface of a mouth of the container and is fitted around the mouth to seal the container; and a cover part (120) which has a hinge part (121) formed integrally with and extending from the first supporting protrusions and then bent, and a plurality of second supporting protrusions (122) at a lower end thereof to protrude inwardly therefrom and is positioned outside of the sealing part 110. The second supporting protrusions (122) are connected to one another through a band member (123). According to the present invention, after first opening of the stopper, it can be checked whether the stopper has been opened. Even when contents remain in the container, the container can be easily sealed again. Thus, the present invention has an effect of convenience of use.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/KR2004/001850

A. CLASSIFICATION OF SUBJECT MATTER**IPC7 B65D 39/04**

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 7 B65D

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched
KR, JP : IPC Classes as aboveElectronic data base consulted during the international search (name of data base and, where practicable, search terms used)
KIPO eKIPASS system**C. DOCUMENTS CONSIDERED TO BE RELEVANT**

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
A	JP 08-217104 A (YAMAMURA GLASS CO., LTD.) 27 August 1996 See Figs. 2 and 5	1, 2, 7, 8
A	JP 09-286453 A (ARAKI KOGYO KK, SANKYO CO., LTD.) 4 November 1997 See the whole document	1 - 9
A	JP 08-295361 A (IMPROPER OPENING-PREVENTIVE CAP) 12 November 1996 See the whole document	1 - 9

☐ Further documents are listed in the continuation of Box C.☐ See patent family annex.

- * Special categories of cited documents:
- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier application or patent but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed
- "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- "&" document member of the same patent family
